### Council Purchases \$3,000 In Fifth Victory Loan

Sports Association Willing to Go 50-50 in Operating Open Air Rink and Grass Seeding Sports Field

Regular meeting of the council was held in the council chamber on Monday evening. Present Mayor Antrobus, Councillors Abousaffy, Cox, Dutil, Ford, Jenkins and Ramsay.

Mayor Antrobus explained to council temporary measures he had taken in having ashes hauled from town residences. Mr. Makin, who had quit the job, was asked to continue hauling ashes for another two weeks and a Mr. Destobel was secured to assist him. Mr. J. DeKly, who has been promised the job should he gain his release from the Selective Service office has been unable to do so up to the present time.

Mr. Dave Gillespie was present to ask action on the title deeds to his lot. It appears that in June, 1939, it was found that his lot was situated on a part of the street. The council of that time asked Mr. Gillespie to give them permission to use a portion of his lot and in return the would have the government give him title deed to the ground on which his house stood and in this manner no expense would be involved in moving the house. Mr. Gillespie gave the council his title deeds to be changed. Nothing has been done about the matter and his title deeds still remain in the town office. Council on Monday evening assured Mr. Gillespie that they would take immediate action to have the deeds changed and placed in his possession at the earliest possible moment.

Another report was received on the drinking water supply and it revealed the water is still contaminated. The local police was authorized to walk some considerable distance up the river and examine the ground for foreign material which might contaminate the water. Several more water containers will be asked sent here in order that more samples may be sent to Edmonton.

A statement for \$158.86 was received from the Dept. of Public Works as town's share of repairing hard surfaced streets inside the town. It was authorized paid.

Council is at a loss to understand why some old age pensioners are receiving \$15 per month while others receive \$20 and \$25. The Department was asked to clarify the matter.

The question of purchasing Vic-

### DOUG AND MAE MOORES MEET IN ENGLAND

Lieut. Mae Moores, who arrived in England last month, was one of the happiest women in Britain recently when her big, husky brother, Doug, came to greet her.

Doug has been overseas two years with the R.C.A.F. and it has been a little more than two years since he last saw his eldest sister. A letter has been received by their parents Mr. and Mrs. Sam Moores, telling of the joyful meeting. Both Mae and Doug are enjoying the best of health.

### Important Notice To Parents Of Young Children Of School Age

At a special meeting of the school board at the weekend the question of young children commencing school for the first time was discussed.

Principal Hoyle revealed that there were thirty two students in each of grades 1, 2 and 3. He had been approached by some parents desiring to start their children at school but had been powerless to act until the matter had been discussed by the board.

Following some discussion it was decided that Nov. 30 would be the suggested deadline and all parents having children reaching the age of 6 years on or before that date should contact principal Hoyle on or before Monday, Oct. 25.

Parents are asked to please note that Nov. 30 is a suggested deadline. The Board wants to make that point clear. If too many applications are received by principal Hoyle the Board will of necessity have to shorten the deadline as there are already 32 students in each of the first three grades and only a few more new students can be accommodated.

tory Bonds was discussed. After listening for a few minutes to Councillors Abousaffy, Dutil and Ramsay it was unanimously agreed to invest \$3,000 in Fifth Victory Loan bonds.

A donation was requested by the Ladies' Auxiliary of the Canadian Legion to aid their Soldiers' Parcel Fund. \$25 was granted.

Parks chairman George Jenkins reported that he had taken up the matter of the Open Air skating rink with the Coleman Sports Association and had received the association's promise to go 50-50 with the council in operating the open air rink this winter. He also reported that the association was willing to go 50-50 in grass seeding the sports field.

### Robert Wilson And Fred Slugg Fatally Injured By Cave At McGillivray On Monday

Body of Fred Slugg Recovered Early Tuesday Morning; Robert Wilson's Body Recovered Late Wednesday Evening; Inquest Friday Evening

The body of Robert Wilson was located at 10 o'clock last night and brought to the surface. The coroner's jury will view the body today and release for burial, as it has already done with the body of Fred Slugg.

Two employees of the McGillivray Creek Coal and Coke Company, Limited, Fred Slugg, 23, and Robert Wilson, 47, were entombed in the workings of the mine Monday afternoon.

Rescue crews entered the mine immediately and at an early hour Tuesday morning the body of Fred Slugg was brought to the surface. Robert Wilson had not been reached late Wednesday afternoon, and the rescue workers were still in the mine clearing the debris.

District Mines Inspector Evan Morgan, of Blairmore, was notified at once of the accident, and has been on the scene as the representative of the mines branch here.

Issues Statement In a statement Tuesday morning, Albert F. Short, vice-president of the McGillivray mine, said:

"A cave in 108 pillar, No. 1 level, in the mine Monday afternoon buried two men, Robert Wilson, 47, and Fred Slugg, 23. Rescue work started immediately following the accident and proceeded all through the night.

"The body of Fred Slugg was recovered at approximately 2 o'clock Tuesday morning. The body of Robert Wilson has not been recovered. In view of the elapsed time since the accident, all hope of finding Mr. Wilson alive has been abandoned."

Find Body

Rescue workers toiled for hours through the night. The buckets and some of the clothes of the men were found and brought out. Then the body of young Slugg was found.

The inquest will probably be held Friday evening at 7 o'clock in the Council Chamber.

ROBERT WILSON

Darkness still clouds the fate of Robert Wilson, aged 47, who along with Fred Slugg, was buried in a cave-in at McGillivray Creek mine on Monday afternoon. As this is being written miners and officials are still working unceasingly to find him.

"Bob" is widely known throughout Coleman, having come direct to town from his home town,

### Victory Loan Concert Heard By Capacity Audience; War Heroes Speak In Support Of Loan

Many Pass Citizens Unable To Secure Admittance; One Minute's Silence Held For Coleman's Dead.

Southern Alberta's Victory Loan publicity department sponsored another very fine variety show at the Community hall on Sunday afternoon and which was witnessed by a capacity audience. It is understood that several hundreds were unable to gain admittance. Lethbridge's publicity chairman, Ernie McFarland, was master of ceremonies. Two distinguished speakers were Major George O'Neill and F.L. Art Clifford, D.F.C.

Wm. Chappell, Blairmore's unit organizer, was introduced to the audience followed by Coleman's new unit organizer, Frank Abous-

### Funerals On Sunday

Funerals of the two mine accident victims will be held on Sunday.

Robert Wilson's at 1 p.m. Fred Slugg's at 3.30 p.m.

Lochpelly, Fifeshire, in 1920. He entered the employ of McGillivray Creek in that year and had been a faithful employee of the company up to this accident.

His only two hobbies were putting around his home on Fifth street and once in a while getting his fishing rod out for a day's fishing.

Besides his wife he has five children the eldest being a daughter sixteen years of age. Two sisters and three brothers reside in Scotland.

FRED SLUGG

Frederick Peter Slugg, 23, who lost his life in a mine accident on Monday afternoon, was born in Pincher Creek, February 15, 1920. His father was a blacksmith by trade and the family shortly after moved to Corbin.

Deceased was seven years when the family moved from Corbin to Coleman where they have resided since. He attended the local public and high schools and was very active in sports. Following his school years he gained employment with a local garage and four years ago entered the employ of McGillivray Creek Coal and Coke Co. Ltd.

On Oct. 25, 1941, he married Miss Mary Garner, of Coleman, and was the father of a little daughter, Marilyn.

Fred's sports interest centred on hockey and he was goalie when the local juniors won the provincial B championship. He graduated to intermediate ranks and started in the local nets for several years.

During the past three years he had coached the local juvenile club and each year had watched them advance to the southern Alberta provincial final. In summer he was a member of the local baseball club.

### SOCIAL CREDIT MEMBERS TO HOLD MEETINGS IN PASS

E. G. Hansell, M.P., and E. O. Duke, M.L.A., federal and provincial members for this constituency, will hold public meetings at Coleman and Blairmore next week and speak on current topics of political interest.

The local meeting will be held in the Community hall on Monday at 8 p.m., and at Blairmore on Tuesday in the Miners' Union hall at 8 p.m. All interested are invited to attend.

Let's attack, attack and attack. Buy 3% Victory Bonds.

### Lions To Boost Playhouse Ticket Sale on Saturday

Two Young Ladies to Stand Beside Playhouse Plentiful Supply of Tickets; Public Asked to Buy Liberally

Coleman Lions Club members will make a determined bid to sell a record number of tickets on their child's playhouse on Saturday in order that as much money as possible can be accumulated in the shortest possible time so as to send young Jimmy Chalmers on his way to Toronto for a plastic surgery operation.

The first thousand tickets were all sold in approximately two days. Another supply of tickets have now been distributed. The public of the Crow's Nest Pass are asked to get behind the Lions effort and buy tickets liberally.

Two young ladies will be stationed alongside the playhouse in the vacant lot next to the Grand Union hotel and persons desiring to buy tickets can secure them from the young ladies.

### ACKNOWLEDGEMENT

Mr. and Mrs. Fred Antrobus, COLEMAN, Alberta.

Dear Mr. and Mrs. Antrobus:—

It is with a great deal of pleasure that we wish to convey the thanks of the Ration Administration to yourself, the council and those who so ably assisted you in the distribution of Ration Book No. 3.

You will realize that it is impossible for us to write a personal letter of thanks to each person who participated in this campaign, and we would like you to pass on to all who worked with you, our appreciation of a colossal job, well done.

Again thanking you for the fine co-operation which you have extended to the Ration Administration each time they have called for volunteers.

Yours very truly, C. G. McKee,

Regional Superintendent of Rationing.

SGT C. E. MAURER SENDS CARD FROM JAPAN

Mrs. Maurer received a card from her son, Sgt. Charles Maurer, a Japanese prisoner. Charles stated he was in good health and working six days per week. They were having numerous religious services which he stated helped a great deal.

### Notice To Householders

Latest Analysis reveals that the local Water Supply is still contaminated. Householders are advised to BOIL ALL DRINKING WATER until further notice.

TOWN COUNCIL

## Public Meeting

Monday, Oct. 25

in the Community Hall, Coleman commencing at 8 p.m.

and in the Miners' Union Hall, Blairmore

Tuesday, October 26

commencing at 8 p.m.

SPEAKERS:

E. G. HANSELL, M.P. and E. O. DUKE, M.L.A.

## British Women At War

AN EVENT OF GREAT SIGNIFICANCE took place recently in England, when six thousand women, representing all branches of war workers, were invited to the Albert Hall in London as guests of the British government. Mr. Churchill and all the members of his cabinet were present to address the gathering and to answer questions. Among the many fine tributes paid to the women assembled there, was that of Mr. Ernest Bevin, British Minister of Labor and National Service, who told them that "women had tipped the scales between defeat and victory." This point was also emphasized by the Prime Minister in a lengthy and impressive address, during which he warned his listeners that there was much bitter fighting ahead of us, and that it would be disastrous if there should be any slackening of the national effort now. While all those present at the meeting were British women, it was felt that the tributes paid to them were for all women of the United Nations, who are carrying on in industry and in the services, thus releasing men for active duty.

### Women Assumed New Positions

For many months after the fall of France, England was potentially a battle zone, and the magnificent determination with which the country was mobilized for defense is well known. At that time the women of Britain took on many new and unfamiliar duties, which they have continued to perform with great success. The British Ministry of Information has given out some interesting details of the way in which Britain's womanpower has been organized. We are told that there are 17,250,000 British women between the ages of eighteen and forty-five, and that over 7,000,000 are employed in full-time paid work in the armed forces, civilian defense and in industry. Nearly 10,000,000 of the 17,250,000 mentioned previously, are married women with children under fourteen years of age, and they are not asked to undertake war work. Married women with children over fourteen years old may take part-time employment and there are 600,000 housewives now engaged in part-time positions. Thus it is clear that there has been almost total mobilization of Britain's womanpower, and that by their efforts they may well have tipped the scales between victory and defeat.

### Replacing Men In Many Jobs

The extent to which Britain's women are helping in the war industries is shown by figures given by the Ministry of Information. These show that sixty per cent. of the employees in the Royal Ordnance factories are women. These factories are employed in making explosives, filling shells and making guns. Forty per cent. of the workers in the British aircraft industry are women, as are thirty-five per cent. of the employees in engineering and allied industries. While it is pointed out that those who are in war industries and in the services perform the most spectacular tasks, there is almost no occupation outside of actual fighting which the women of Britain have not undertaken. It is said that the female staff in post offices has risen from twenty-three per cent. in 1939 to forty-one per cent. in 1942. Before the war, there were only three full-time post-women, and now there are over ten thousand. Eighty-five thousand women are now replacing men in all types of work on the railroads of Britain, and there are over sixty thousand women engaged in full-time work in agriculture, in addition to many thousands of seasonal and part-time workers. These are only a few of the many ways in which the women of Britain have assumed their share of the winning of the war. The women of the other United Nations are likewise doing their utmost and there is no doubt but that the tribute paid to them by the Government of Britain was a well-earned one.

### In High Society

Soms Cows Have Names That Belong To Social Register

Recently we heard of a cow called Springbank Snow Countess: consider that for a few minutes. It calls up a picture of a high-born beauty, chilly and distant in manner, but with a promise of warmth and affection upon closer acquaintance. Another cow is called Glenview Pontiac Dore of Koli; there is a name which would not be amiss in the Social Register. Yet another is Doreen Francy Rag Apple, obviously a skittish, debutante, cafe-society sort of cow. And another well-known to dairymen, is Susie Corndyke Fayne Lass, a name fit for a princess among cows.

Think of the thoughtful attention which appears in these names! Think of the pride of the milkmaid or cowman who walks to the pasture gate and calls, "Here Susie Corndyke Fayne Lass! Here Doreen Francy Rag Apple!"

And think of the pride of the cow who responds! She will be no red-eyed old terror with a crumpled horn, but a high-stepping society cow filled to the neck with cream. Any one who says that farmers have no imagination merely shows his ignorance.—Stratford Beacon-Herald.

Pipelines conveying oil from the wells of Iran to the refineries are 1,150 miles long.

### SMILE AWHILE

Passenger (to driver of old horse)—Can't you go any faster?  
Driver—I could, sir, but I wouldn't like to leave my horse behind!

Guide—This castle has stood for 600 years. Not a stone has been touched, nothing altered, nothing replaced.

Visitor—Um, they must have the same landlord we have.

"I don't know what I would have done if it hadn't been for you," exclaimed the discharged prisoner. "You'd have done time," was the dry comment of his attorney.

"I want a pound of butter."  
"The best?"  
"What was the last I had?"  
"The best."  
"Give me a pound of the other."

Wife—The fortune-teller said my second husband would be handsome and clever.

Husband—Do you mean to say that you were married once before and never told me about it?

Mr. Smith—Your wife used to be so nervous, now she doesn't seem to show a sign of it. What did you do for her?

Mr. Brown—That was easy; the doctor simply told her nervousness was a sign of age.

Mother: "Now, before you get serious with him, be sure he is always kind."

Daughter: "Oh, I'm sure he is. I heard him say he put his shirt on a horse that was scratched."

Wife: "I'm afraid the mountain air would disagree with me."

Hubby: "My dear, it wouldn't dare!"

"Pop, if I saved you a dollar, would you give me 50 cents of it?"

"Yes, I guess so, son."

"Well, I saved it for you. You told me you would give me a dollar if I passed in arithmetic, and I didn't pass."

"How did the Smith wedding go off?"

"Fine, until the person asked the bride if she'd obey her husband."

"What happened then?"

"She replied: 'Do you think I'm crazy?' and the groom, who was in a sort of daze, replied, 'I do.'"

"Does your husband talk in his sleep?"

"No, and it's terribly exasperating. He just grins."

"Johnson's address was well timed, wasn't it?"

"Yes, two-thirds of the audience had their watches out before he finished."

Lady Movie Patron (turning to man sitting behind her): "Shall I remove my hat?"

Man: "No, that's not necessary, Madam. It's much funnier than the comedy on the screen."

The raccoon is one of the few American animals without a European counterpart.

## Our Boys And Girls On Active Service

(By Ottawa Observer)

FOR the recent Jewish New Year religious holidays, Canadians of that faith were given leave from the armed forces, and in some camps special services were held by chaplains of the Jewish personnel.

Lt.-Col. Charles E. Bailey, D.S.O., M.C., has returned from overseas to organize a unit of steevedores now serving in the Canadian Army. Although a resident of Vancouver, he was born in Kamloops, that pretty town on the junction of the north and south Thompson rivers.

A number of Western men were among the 41 Canadian Engineer sub-lieutenants of the Royal Canadian Navy who are doing duty now with the Royal Navy. There is Alan M. Cameron of Saskatoon; George Irvin Loucks from out at Invermay, Sask.; Arnold Sobelberg of Gresham, Manitoba, and E. L. Park of Edmonton. These Western lads are in keen demand in the navy.

A pupil took over from a former instructor at a Canadian fighter wing in the Old Country, when Squadron Leader J. E. Walker, D.F.C. and two bars, succeeded Wing Commander K. Hudson, D.F.C. and bar. The former is an Alberta man, now home at Edmonton. He will be administrative station commander.

Flying Officer H. T. Brown, of Biggar, Sask., one of the small towns which was a stop for the Royal Train back in 1938, won the D.F.C. recently, when one engine cracked as he was on the way to Nuremberg, but he kept on and dropped his load successfully. Two nights later he was again on the wing, this time over Berlin.

Long range Liberators of the North Atlantic Command have a sweet time hunting the German pig boats. One of the first to register a successful attack, a crew member and co-pilot on one, was Warrant Officer Art Adamson of Vegreville, Alta., helping to drop those lethal depth charges on another U-boat was Sgt. Lloyd Conlin, a fellow Albertan from Drumheller.

Decorations have been coming thick and fast to Canadians in the three services and Western boys are sure in the "getting" class. From Lillie, Sask., a little farming community, was Squadron Leader W. C. Klassen, who got a Bar to his D.F.C. and three bars. Flying Officer C. W. Paddock of Elkhorst, Man., has been recognized with a D.F.C., as was P.O. G. W. Duffield, Lloydminster, Sask., and S. J. Ellingson, of Broadview, was awarded a Distinguished Flying Medal.

Now that the army lads have been on the push through Sicily and Italy, acknowledgments of bravery are being announced for them, two privates, Wilfred Reilly, of Elmiston, Man., and L. J. Tuppen, of Windfall, Alta., got the coveted Military Medal.

A new fast-shooting combination called Twin-Bren Guns which can do double execution was demonstrated for the first time not so long ago at Currie Barracks, Calgary, and the boys think it's something which the Jerries won't like.

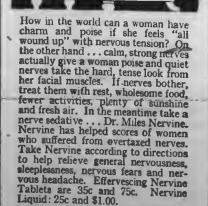

The party of two officers and 12 ratings of the Women's Royal Canadian Naval Service) were certainly given a grand reception in London, first of their kind to arrive for overseas service. Bomb scored London, veteran of four years of war, her streets studded with uniforms of the United Nations forces, but still the capital of the Empire, everyone took the girls to their hearts and really made them welcome. Press photographers and newsmen vied with each other for interviews.

### WINTERING BEES

Mainly because the honey in northern countries is gathered from clovers, it is more wholesome for wintering bees than honey from the south. Dandelion honey has proved fatal to bees. Honey from hard maple or from pure alfalfa, and honey from white goldenrod, granulates so hard in the combs that wintering bees are unable to use it.

### STEADY NERVES ARE A BIG HELP TO GOOD LOOKS!

How in the world can a woman have charm and poise if she feels "all mixed up" and nervous? On the other hand, a calm, strong nerve actually gives a woman poise and quiet nerves take the last little look from her facial muscles. If nerves bother you, fewer activities, plenty of bathing and fresh air. In the meantime take a nerve sedative. Dr. Miles Nervine has helped scores of women who suffered from overtaxed nerves. Take Nervine according to directions to help relieve general nervousness, sleeplessness, nervousness and nervous headache. Effervescent Nervine Tablets are 35c and 75c. Nervine Liquid: 75c and \$1.00.

Dr. Miles Nervine

### DID YOU KNOW THAT—

Ottawa has its own living Father Time? He is the gentleman who may be seen riding his bicycle to Parliament Hill's noonday gun to set and fire the charge that keeps official Ottawa on time. And he does it with a second-hand watch he won in a raffle 25 years ago. This oddity is one of a number described in the latest "Did You Know That?" Canadian Cameo produced by Associated Screen Studios.

### No Luxury Sizes

New Order Has Standardized Length And Width Of Towels

Production of an additional 175,000 towels yearly is expected as a result of a new standardization and simplification measures order of the wartime prices and trade board which became effective Oct. 5.

The new order prohibits luxury sizes of towels, standardizes production of popular sizes, freezes qualities and designs and limits color ranges. Similar restrictions have been placed on wash cloths and bath mats.

"Plain terry towels are restricted in width to a maximum of 24 inches," he continued. "Jacquard or crested terry towels may be made no longer than 45 inches and no wider than 24 inches. Wash cloths no larger than 12 by 12 inches."

The maximum size for plain terry towels has been set at 17 by 32 inches, thus eliminating three large sizes. A maximum width of 20 inches and length of 36 inches has been fixed for jacquard or crested terry towels.

Each manufacturer of bath mats will be restricted to a maximum of two sizes, the official said, and in no case can he increase the number of sizes he now markets. To avoid production changeover losses, constructions and patterns have been frozen to those made for sale during the past six months.

### GEMS OF THOUGHT

#### ENTHUSIASM

Enthusiasm is the genius of sincerity, and truth accomplishes no victories without it.—Bulwer-Lytton.

Earnestness is enthusiasm tempered by reason.—Pascal.

There is no substitute for thorough-going, ardent, and sincere earnestness.—Dickens.

Every great and commanding movement in the annals of the world is the triumph of enthusiasm.—Emerson.

Christian experience teaches faith in the right and disbelief in the wrong. It bids us work the more earnestly in times of persecution, because then our labor is more needed.—Mary Baker Eddy.

Let us recognize the beauty and power of true enthusiasm; and whatever we may do to enlighten ourselves or others, guard against checking or chilling a single earnest sentiment.—Tuckerman.

An applicant for supplemental gasoline gave this reason: "To haul my wife to work."

### A Better World

Lord Halifax Says Four Nations Have The Most To Contribute

Ambassador Lord Halifax, in an article written for the magazine "World Affairs," expresses the belief that the United States, Britain, Russia and China are the nations which have the most to contribute in "getting the world on its feet again after the war."

"Between us," he writes, "we dispose of a very large part of the world's resources in manpower, industrial strength and material wealth. If we want a better world, it is up to us to get it started."

"Small powers know to their grief how discord or inertia among the great can make small problems into big ones and big ones into calamities. They rightly look to us, the great powers, to see that this sort of thing does not happen again."

"If the dream of world security is to come true, it can only be on the condition that each . . . is willing to assume its just burden of responsibility."

### FARM ANIMAL DISEASES

For various reasons, certain infectious diseases of farm animals have been considered so important that the responsibility for their control has been placed in official hands. Among other duties, the Health of Animals Division, Dominion Department of Agriculture, is charged with this responsibility and operates under an Act of Parliament. Anthrax, mad cow, foot and mouth, cholera, swine plague, rabies, mange, and sheep scab are the diseases listed.

Yemen, in southwest Arabia, was the site of the Biblical Kingdom of Sheba.

A 500-pound bale of cotton flurs yields 140 pounds of vegetable oil for food.

## SERIOUS SHORTAGE OF PLANES IN GERMANY TO CARRY ON AERIAL DEFENCE NOW EVIDENT

LONDON.—Mounting evidence that the German air force is scraping the bottom for planes to meet air attacks indicates that the Reich's defenses may crack when the aerial war reaches its climax sometime soon.

Airmen have felt ever since the Battle of Britain that the Luftwaffe's failure to carry out the tasks given it by Hitler was the outstanding German weakness of the war. For at least a year many experts have thought the Luftwaffe would be the first Nazi armed service to crack up, as it was in the First World War.

That time may be closer than anyone realizes. There have been recent signs the German air force is not only so thinly stretched along all fronts that it cannot hope to match the Allies on any one front, but also lacks reserves to keep on even at their current pace.

Among these signs are:

1. Reports by American pilots who participated in the last raid on Schweinfurt showed the Germans used all sorts of antique planes in desperate efforts to turn off the Flying Fortresses.

2. The Germans, in evacuating the east bank of the Dnieper, were said to have used obsolete planes, including old Italian and French machines.

3. It was established that in evacuations from Tunisia and elsewhere in the Mediterranean the Germans resorted to Junkers 52s normally used for training bomber crews. The Germans apparently are suffering from no shortage of pilots. But

there are shortages in certain raw materials as result of transport disruptions. Industrial damage already has cut production.

Air experts believed the full effects of concentrated assaults on key air production targets will be felt worse about three months hence when the planes they should have produced will be scheduled to crash front lines.

Of the German fighter strength estimated at close to 5,000 planes, two-thirds were believed concentrated against the British-American air offensive. The necessity of showing some fight in the Balkans and Mediterranean has drained the Luftwaffe to a point where only about 300 planes may be on the entire Russian front.

The fighter strength in the west apparently is roughly divided 50-50 between day and night.

Production in Germany is thought to have gone over strongly to defensive fighters to the extent that many factories have dropped bomber production entirely and new plants are devoted entirely to the smaller craft.

### PROTECT WORKS OF ART

LONDON.—Sir James Grigg, war secretary, told the reconvened House of Commons that British and American experts in occupied Italian territory were taking over the protection and supervision of all ancient monuments, museums and art works. He added that damage due to the war was being repaired.

## CANADA WILL CONTINUE TO BE MAJOR FACTOR IN MAINTAINING FOOD SUPPLIES FOR BRITAIN

OTTAWA.—Consideration now is being given contracts under which Canada will supply the United Kingdom with vital food supplies in 1944, with the certainty the Dominion will continue a major factor in maintaining British rations, it was learned here.

One of the first contracts to be decided will be for bacon. This year Canada is seeking to supply 675,000 pounds and officials said it was believed this objective would be attained because of a tremendous gain in hog production.

"There is a limit to production and while it may not have been reached even yet, the prospects are that Canada will not undertake to provide the United Kingdom with any large additional quantity in 1944," said one authority.

"Canadian contracts usually are worked in such a way that the Dominion agrees to supply the United Kingdom with 'not less than the amount announced. Under such an arrangement the shipments may not be limited to the poundage figure mentioned, if conditions are such that an additional amount may be provided. This system is expected to remain operative during 1944."

On this basis, Canada might undertake to provide bacon to the quantity of 675,000,000 pounds in 1944, plus whatever could be produced in addition.

Besides bacon, Canada is making an all-out effort this year to provide the United Kingdom with 150,000,000 pounds of cheese and 63,000,000 dozen eggs. There is little prospect that these contracts will be met in full, but alternative shipments, such as butter, mean that the total Canadian contribution in food will not be far short of what the British expected.

Officials said that reduced crops this year may have their effect on the amount of food Canada can export next year, but the major decrease in the west is a guarantee there will be no catastrophic reduction from this cause.

Labor and prices are important factors which cause some anxiety to the authorities who indicate to Britain what Canada will be able to produce in the coming year.

The government free-freight policy for feed and ceilings giving protection on feed prices have been a safeguard for farmers increasing their farm output to meet overseas requirements. But with labor shortages, difficulties in obtaining machinery replacements and high wages in other industries, some farmers have

### Sea Lord Retires

Admiral Sir Dudley Pound, who has retired from the post of Britain's first sea lord because of ill health.

### ALASKA HIGHWAY

Canadian Artists To Record Work Of The R.C.A.F.

OTTAWA.—A. Y. Jackson, dean of Canadian painters, is on a government assignment to record the work of the R.C.A.F. on the Alaska highway, as well as other features of the great road, it was announced here.

Mr. Jackson is accompanied by H. G. Glyde, head of the art department of the Institute of Technology, Calgary. Both artists are working under direction of the National Gallery of Canada.

### ARMY BARGE

First Sectionally-Built Vessel Of Its Kind Built In Canada

MAHONE BAY, N.S.—What is believed to be the first sectionally-built, outboard motor-powered army barge in the world was given its test trials here.

The craft, known as a Minca freight barge, is intended to accompany invasion barges on landing operations, carrying equipment and supplies. It is built in six pre-fabricated sections, and was designed by W. J. Rouse, marine architect from Dartmouth, N.S. It can be shipped overseas in sections, to be assembled and fitted with a two and one-half ton outboard motor.

### PART OF PROGRAM

Mussolini's Government Orders Death Penalty For Italian Patriots

AT THE SWISS-ITALIAN FRONTIER.—Mussolini's Fascist republican government, getting in step with the stern measures of the Nazi occupation forces, ordered the death penalty for Italian civilians who fall to heed German and Fascist decrees.

The order was part of a program to quell patriot activities in northern Italy.

Numerous summary executions were reported throughout northern Italy where underground activities were said to endanger troop movements to the battlefronts in the Italian peninsula.

## OTTAWA HAS ANNOUNCED NEW PRICES ON WHEAT PURCHASED BY THE BOARD

### V-Loan Chairman

Lieutenant-Colonel G. H. Rainville, of Montreal, who has been appointed national chairman of the Fifth Canadian Victory Loan Campaign (Army).

### ALLIED AIR FORCES

Are Hastening Day Of Final Victory Declares Churchill

LONDON.—Prime Minister Churchill declared in congratulatory messages to the R.A.F. and the United States 8th Air Force that "we shall together inexorably beat the life out of industrial Germany and thus hasten the day of final victory."

Mr. Churchill told the American unit its achievements in the Battle of Germany "have contributed notably to the success of Allied arms everywhere."

The prime minister told the R.A.F. that the war cabinet realized the significance of the fact that the bombing of Germany had forced the German air force "from the offensive to the defensive, both operationally and in new construction."

### CHANNEL ISLANDS

Tea And Coffee Selling At \$110 A Pound

LONDON.—Residents of the Nazi-occupied channel islands have to pay £25—approximately \$110—a pound for tea and coffee, unless they are content to drink acorn coffee and bramble tea.

And even at that price, informed London sources say, supplies are available only from the black market, where ordinary stocks were exhausted two years.

It has also been reported that the Germans, adding insult to injury, sent the island's celebrated tomato crop to France for sale at two pence a pound.

### SHOWS TRUE COLORS

STOCKHOLM.—Fritz Clausen, head of the Danish Nazi party, was arrested recently by the Germans and sent to fight on the eastern front because he was accused of diverting to his own use 100,000 Danish crowns given to his party by Berlin.

OTTAWA.—Trade Minister MacKinnon announced that price differentials on western wheat bought by the Canadian wheat board, apart from the \$125 a bushel for No. 1 Northern already announced, will be: No. 2 Northern, \$122; No. 3, \$120; No. 4, \$115; No. 5, \$110, and No. 6, \$106.

All prices are based Fort William-Port Arthur, and the minister said they are substantially more favorable than the discounts prevailing on the open market at Winnipeg on which wheat trading was suspended Sept. 28.

The minister also announced that an order-in-council was passed Oct. 12 giving the Canadian wheat board control over the purchase, sale and movement of wheat needed to implement the government's new wheat policy announced Sept. 28.

Under this policy wheat trading on Winnipeg Grain Exchange was suspended.

Under the policy announced last month, the board will acquire for the crown all wheat held by the board in its 1940-41, 1941-42 and 1942-43 crop accounts, together with all wheat in commercial positions remaining unsold to the ultimate buyer.

These stocks will be used for sales to domestic users and to countries in receipt of mutual aid from Canada.

The board will buy all western wheat offered for sale by producers at the new initial advance of \$125 a bushel, basis No. 1 Northern at Fort William, and participation certificates will be issued to producers on these deliveries.

The participation certificates ensure the farmer will benefit if higher prices are realized by the board when the grain is sold.

### AGAINST BIG ODDS

Four Allied Planes Won Fight With Forty-Four Japanese

ALLIED HEADQUARTERS SOUTH-WEST PACIFIC.—Four Allied fighter planes have won a thrilling David-and-Goliath engagement with the Japanese.

High above the strategic, enemy-held New Guinea, alone, four of the fighters, were hopped by 44 Japanese planes.

An Allied communique announced that the fighters shot down at least eight of the Jap planes and probably two others. The enemy squadron, 32 fighters and 12 bombers, was completely broken up. None of the Allied planes were lost, although the odds were eleven to one against them.

### ORANGES FOR BRITAIN

LONDON.—Citrus-hungry Britain learned that 84,000 oranges have reached this country—for youngsters only. Food Minister Lord Woolton said children up to five will receive two pounds of oranges each, and those between five and 16 will get one pound. Retailers must reserve their supplies for children for five days after receiving their stocks, then the remainder can be cleared without restriction.

Do Your Duty—Buy Victory Bonds.

### Mary Churchill Aboard Renown

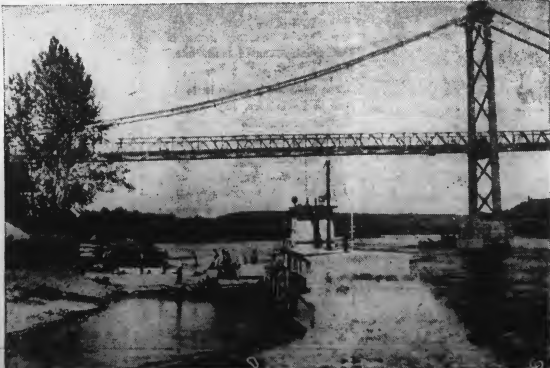

Subaltern Mary Churchill watching a practice shoot, with a sailor aboard the Battleship H.M.S. Renown on which she and her father and mother crossed to Britain.

### Business Booms On The Alaska Highway

Supply trucks and tank trucks, loaded to capacity, roll in endless convoys along the Alaska highway, going north with the snows of war. Completed in record time, the Alaska Highway is still unpaved and pretty tough in spots, but there are some stretches where trucks can speed up to 40 m.p.h. The ride is called the "world's toughest grind."

### Steel Bridge Instead Of Old Stern-Wheeler

The first permanent steel bridge on the Alaska highway is this one over the Peace River. Before it was opened army trucks speeding snows of war to northern outposts, were ferried over the old stern-wheeler. Since the bridge was opened on Aug. 15, the volume of traffic has been greatly increased.

## ARRANGE TO SEND A RESCUE PLANE TO FUR TRADING POST NORTH OF THE ARCTIC CIRCLE

WINNIPEG.—Supplies for three white men and a woman isolated at only a month's food supply. The regular supply ship, due to severe ice conditions, has not been able to reach the post for two years.

Fort Ross is 1,000 miles from Churchill, northern Manitoba port, and is some 400 miles north of the Arctic circle—farther north than any other Canadian settlement.

The staff at Fort Ross includes W. A. Heslop of Newcastle-on-Tyne, the post manager, his wife, the former Babe Irwin of Winnipeg, D. W. Munroe, clerk, Clavin Williams, Man, and Constable C. L. De Lisle, Royal Canadian Mounted Police, Ottawa.

"They are in first class shape," said Mr. Cheshire. "We have exchanged messages, making plans for a possible airplane landing."

He said October was not a "good weather month" in the far north, with heavy fogs sweeping across the land, but generally conditions show improvement in the early days of November.

## THE COLEMAN JOURNAL

Published Every Thursday at Coleman, Alberta. Membership in Canadian Weekly Newspapers Association and Alberta Div. C.W.N.A.

### NOTES AND COMMENTS

#### Community Mourns Tragedy

The community has been saddened this week by the tragic mine accident which snuffed out the lives of two men. Mine accidents occur periodically despite the safety regulations which may be imposed. It brings into the light the fact that a miner's occupation is ever a dangerous one. The sympathy of the community is extended to the bereaved families.

#### Newspapers and Their Readers

When one writes in a newspaper he has only a fair idea of how many people will read his article. We have been privileged this past summer to travel to some fairly distant points. Riding in the trains and watching the numerous travellers perusing their papers, the thought struck us that many writers never know how many readers read their articles and from what parts of the continent they may have come. One small item appeared in The Journal this spring and was read by a party in England who secured a copy and comment was made upon this item in a later letter reaching Coleman. Copy emanating from here regarding the Lions' Fund for Jimmy Chalmers has been read in the dailies by people far and wide and aroused their sympathy, resulting in the Fund receiving subscriptions from sympathizers.

#### The Victory Loan.

The Fifth Victory Loan is now in full swing and each evening totals from various parts of the Dominion are received over the radio and in newspapers. Canada, as expected, is maintaining a daily average which will see her obtain her objective within the three weeks time limit.

Coleman is showing better results in the first three days subscriptions than it did last April. Canvassers report that many people hitherto hard to sell have changed radically in their opinion on bonds. They report that they are being received with courtesy everywhere and that the majority of citizens have already given their bond purchases much thought and have the amount ready when the canvasser calls.

Another point which the canvassers are a little surprised at is the general feeling of the public that this is the most important loan ever launched in Canada. On this loan depends whether the war will be continued or shortened by many months. They feel that the enemy is groggy and now is the time to hit him with everything they have and so not allow him to get his "second wind." It's very probable that they may be right.

#### Coleman Growing

We sat at a school board meeting this week and heard the statement made that Coleman was growing, and that all its growth was taking place on the eastern part of the district. It was further stated that it might be necessary in the near future to make the dividing line on Mayfair Avenue (Motordrome and Vendor's store) and those west of the avenue to go to West Coleman school and those east to attend Central school.

The meeting was called to better distribute 62 grade 7 students, some of necessity having to attend a grade 7 class at Cameron school. It is doubtful if many parents would sit quietly by, especially those in the centre part of town, and allow their children brave winter winds in walking up to West Coleman. Should the time come when the dividing line has to be brought further east the school board will have to give serious thought towards creating more classrooms at Central school and employing more teachers.

#### Buildings—And Business

Members of the building superintendents' association tell us that the most economical method of maintaining a structure in good condition is to take the stitch that saves nine; make minor repairs before they become major. This doesn't prevent occasional major operations. Neither is it insurance against earthquake, enemy bombing or desertion of tenants in bad times. But by and large, it pays to do many little things today because such attention averts some of the big things tomorrow.

There is an analogy in this and public relations work. Keeping public opinion favorable is largely the result of many little things. If there is a real absence of dirt there will be none to be found by that keen inspector of large enterprises, Mr. John Public. The building manager and the business manager alike must be ever on the job to prevent deterioration.—The Printed Word.

**Censorship**  
Sergeant Eddie Watson is a courteous doughboy. Ever mindful of the censor who reads his mail, he stopped in the middle of a sentence recently to interpolate: "Excuse me, Lieutenant Leslie, this is my wife. Honey this is Lieutenant Leslie—the censor."  
Then he started a new sentence, "Crowded in here isn't it,

**You Can't Deny It**  
"What's that pin-up girl that the soldiers talk so much about, Daddy?"  
"Well, in this household it's your new baby sister."

### - Spotlighting -

Corporal James Lloyd

son of Mr. and Mrs. R. Lloyd Born at Hindsford, Lancashire, England, on Aug. 18, 1921. Came to Canada with parents when one year old. Grew into manhood in Coleman and attended local public and high schools. Was an employee of the McGillivray Creek Coal Co. Enlisted in May, 1940, with the R.C.E. and went overseas in April, 1942.

### "Windows of Fame" Draw Favorable Comment

Much favorable comment has been heard regarding the twelve "Windows of Fame" featuring photographs of men and women from Coleman in the armed services.

These photographs are serving the purpose of bringing to mind to a number of citizens many of our young people who have been absent from our midst for the past few years.

One picture which has drawn much interest is that of Armand Celli, now a member of the Australian Army. Armand was a Journal newsboy when he attended school here and through his pleasing disposition was well liked by many. He has left town for many years and had more or less been forgotten. To see that he had landed in Australia and joined the armed forces of that country caused much interest.

The casualty window is to be seen at Zak's store. John Rogers, Charlie Maurer and Joe Zak are prominently featured.

All merchants are to be congratulated on their fine window decorations which add to the beauty of the "windows of fame."

It is the intention of the Loan Publicity committee to "switch" the pictures in the various windows at least once a week.

...V...  
**VICTORY LOAN BROADCAST**

Radio station CJOC in conjunction with the Lethbridge Herald has a news broadcast each evening at 5:30. It gives world news and also news of every southern Alberta Victory Loan unit. Progress of every unit is played up and the broadcast as a whole is very interesting.

## Page from a Primer

Q.—What is the Fifth Victory Loan?

A.—It is another opportunity for Canadians to put their money into the fight for Victory.

Q.—How will my money help win Victory?

A.—It will supply the vital weapons of war needed by our troops overseas.

Q.—How will I benefit personally?

A.—You will be saving your money (with interest) for the post-war period when you may need it more.

Q.—How much should I spend on bonds this time?

A.—At least as much as last time. Every cent you can possibly spare—and a little more.

This advertisement contributed to the Fifth Victory Loan Campaign by Dominion Textile Co. Ltd., Montreal.

Cranbrook Firm  
Donates \$20 to  
Chalmers' Fund

Asks Local Club to Please Accept  
Cheque; Wishes Lions Success in  
Their Endeavor.

A delightful surprise greeted  
Lion Secretary John Van Mastron  
in the mail Tuesday afternoon,  
when he received a cheque for \$20  
from the Cranbrook Foundry to be  
placed in the Jimmy Chalmers' fund.

The letter accompanying the  
cheque reads:

Dear Sir:  
Several days ago we noticed that  
your club was sponsoring a fund for  
the benefit of a child who had  
been disfigured in an accident some  
time ago.

We are out of your immediate  
district, but commend the worth-  
iness of your action and would be  
more than pleased if you would  
permit us to offer our assistance to  
the extent of the attached  
cheque.

We sincerely trust that your ef-  
forts will meet with success and  
that this little fellow will be re-  
stored to normal health and ap-  
pearance so that he may enjoy life  
and one day take his place as an-  
other good Canadian.

Yours very truly,  
Cranbrook Foundry and  
Machine Shop.

Mr. Van Mastron reports the do-  
nation of 50 cents from Mrs. Har-  
ry Kuryluk, of Bellevue, who de-  
sires to aid the fund.

The Lions' committee in charge  
of this fund thank the Cranbrook  
firm and Mrs. Kuryluk most sin-  
cerely for their valued subscrip-  
tions and assure them that the  
Lions club and little Jimmy Chal-  
mers in particular appreciate this  
help.

## HOLD BAZAAR SATURDAY

Coleman Polish Society is spon-  
soring its annual bazaar in the  
Polish hall in East Coleman on  
Saturday, Oct. 23, from 2 to 7.30  
p.m. All citizens are extended a  
cordial invitation to attend.

A dance will be held in the hall  
from 9 p.m. to midnight. At 11  
o'clock the tombola drawing for  
various prizes will take place. The  
Night Hawks' orchestra will supply  
dance music.

## THEATRE NOTES

A really good film comes to the  
Palace this week end, entitled  
"Action in the North Atlantic."  
Featured players are Humphrey  
Bogart, Raymond Massey and Julie  
Bishop. It deals with getting con-  
voys through the North Atlantic  
to Britain and from Britain to the  
northern ports of Russia. It depicts  
the perils of attack by U-boats,  
ships being blown to pieces by tor-  
pedoes, of U-boats being ripped  
apart by Allied guns of men swim-  
ming through waters coated with  
burning oil. It is a most interest-  
ing and educational picture. A  
love story runs through the pic-  
ture, but is of secondary impor-  
tance to war scenes in the North  
Atlantic.

At Cole's, Bellevue, John Stein-  
beck's great novel, "The Moon is  
Down," is the main feature. Many  
will have read the book, while oth-  
ers may have heard the radio ver-  
sion some months ago. It is a war  
story, depicting Nazis choosing the  
main citizens of a Norwegian town  
and holding them as hostages, later  
shooting them when sabotage by  
the Nazis continues.  
At Blairmore this week end,  
Gloria Jean will appear in "Get  
Up to Love," and will sing several  
songs in her lovely little voice.  
The second feature will see Gene  
Autry in "Bills of Capistrano."  
Both features are filled with music,  
action and comedy.

## Acknowledgements

Mr. J. M. Allan,  
Coleman Cash Grocery,  
Coleman, Alta.

Dear Mr. Allan:

Many thanks for your letter  
and money order for \$43.00 which  
I received yesterday.

On behalf of the British chil-  
dren who receive these 430 quarts  
of milk, I would like to say a  
sincere "thank you" to the chil-  
dren of Coleman who made this  
splendid donation possible. I  
would appreciate it very much  
if you would personally thank  
Walter and Gordon Roper, Robert  
Hill, Wayne Mitchell, Mary  
Hopkins, Kenneth Fry and Eileen  
Kennedy for their unselfishness  
in supporting this worthwhile  
Fund.

We hope the children of Cole-  
man get behind our Halloween  
"Shell Out" on October 30th. I  
know they will have a lot of fun

as well as having a feeling of  
satisfaction in helping their less  
fortunate cousins in Britain.  
Again Many thanks.

Yours very truly,  
Edmund Cairns,  
Chairman, War Ser-  
vices Committee.

Mr. J. Allan,  
Coleman, Alta.  
Dear Sir:

On behalf of the Lehigh  
Kinsmen Club I would like to ex-  
tend our thanks to the supporters  
of the Milk For Britain Bottle  
placed in your store.

This money, \$11.87, has been  
turned over to the Fund and will  
do its share in purchasing Milk  
for the kiddies in Britain.

Yours very truly,  
A. G. Millar,  
Sec. War Service Committee.

## FARMERS AND FARM WORKERS

If Your Farm Work has Slackened  
for the Winter, You Are Needed  
Elsewhere in Essential Employment

Highly essential work—very important in Canada's war effort and for the welfare of the Nation—is threatened with shortages of workers. One of the few sources of men available for other high priority jobs is those men on the farm who will not be needed at home during the Fall and Winter. Heavy needs must be met in many lines—producing vitally essential forest products; in base metal and coal mining, in food processing, in railway track maintenance. If you live on a farm and are not needed at home during the Fall and Winter, you are urged to answer this national appeal.

Farmers engaged in essential work during the off season will be allowed to return home when needed. Also, those on postponement under Mobilization Regulations will continue on postponement while in approved essential work during the slack season on the farm.

Please answer this vital call NOW.

## Sports' Assoc. Held Semi-Annual Meeting

Committees Give Reports;  
Endeavor to Have Arena Hived  
of Activity this Winter.

On Sunday evening in the community hall Coleman Sports' Association held its first semi-annual meeting before a fair gathering of members. In the absence of president Win. Field, vice-president A. A. Fraser presided.

In his remarks Mr. Fraser stated that the Association had been organized at a most difficult time. Labor and material was high and a great deal of money would be involved if "the Association went about repairing sports' fields and buildings necessary for the promotion of local sport.

The July 1 sports had been most successful and would be continued in the future.

The aim of the association was the promotion of sports in Coleman for young and old. In dealing with the arena he stated it was in very bad shape, the roof being no better than a screen door. The south half of the arena roof was gone while only a part

of the north half was serviceable. Through lack of organization the arena had been allowed to deteriorate. The building had now been leased to the association by the town. All the repairs would belong to the town.

Much debate had been heard on a new location for the arena and since no avenue was being overlooked an estimate was being prepared at the present time for moving the arena. Mr. Fraser cautioned however that it was only an estimate and it was not to be taken for granted that the arena was going to be moved. It would require approximately \$2500 to put a new roof on the building.

At present time they had an estimate of \$570 to repair parts of the roof and this expense did not carry a guarantee.

Membership cards had been printed and each member and his dependents would receive their cards later in the year.

A softball league had been sponsored during the summer months and some equipment purchased for the July 1 sports had been turned over to the league for its use.

Treasurer Joe Emmerson read the financial report which revealed the Association had a little better than \$1100 in the fund. This report will be published at

a later date.

Mr. Emmerson in making his report revealed not a single member had withdrawn his support from the association.

Secretary Steve Ondrus stated in his report that fees were 25c monthly. A member, paying his monthly fee, also had sports facilities obtainable for his wife and family, the youngsters ranging in ages from 8 to 18 years.

Frank Aboussafy, member of the executive, stated that every effort would be made to open the curling rink this winter. Curling fees would be determined at a later date.

## School Board Notes

At the general meeting of the school board at the week-end the matter of tumbling in the high school auditorium was discussed with Inspector Hinman.

The board was giving serious consideration towards prohibiting tumbling in the auditorium as cracks were appearing in the ceilings of the rooms underneath. Inspector Hinman appealed against the board prohibiting tumbling and pointed out that drill marches would create more vibration than would tumbling and offered suggestions for elimination of the cracks in the ceiling.

ings. The board agreed to continue tumbling in the P.T. course.

Principal Hoyle reported that upon his instructions books of four students, who had contracted scarlet fever, had been burned. He suggested that the board compensate the students to the extent of half the purchase price. His suggestion was complied with.

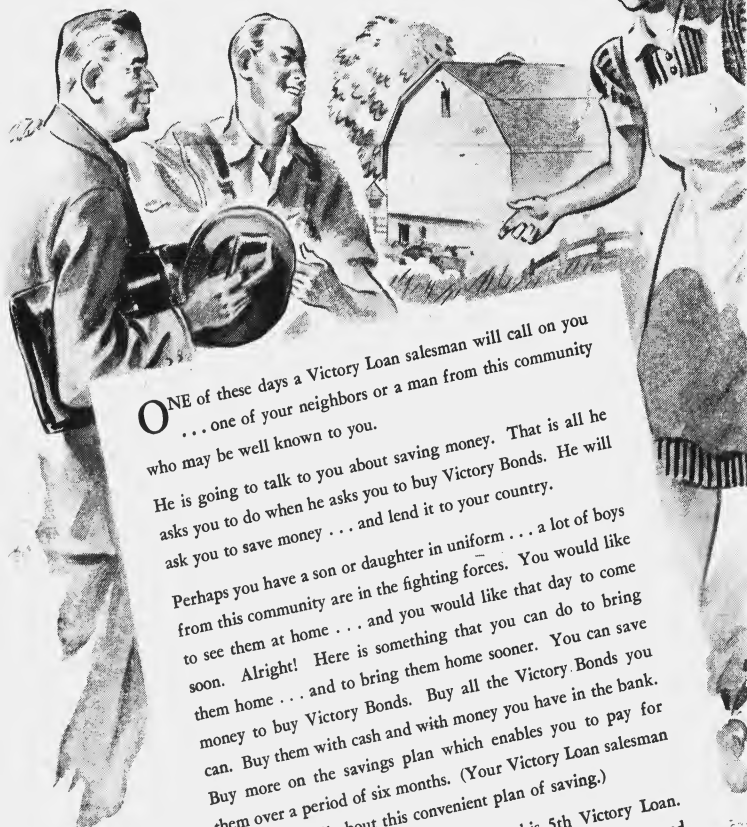

Mr. Harvey Wheatcroft, of Calgary, will continue to tune the school pianos.

The provincial trustees convention will be held in Calgary on Nov. 10, 11, 12. It was agreed that a delegate should be sent from Coleman, said delegate to be chosen at the next board meeting.

A few resolutions will be drawn up, the most important of which will deal with the soldiers' tax exemption. The Board has no objection to soldiers being tax free but it is the trustees' opinion that since the province passed such legislation it is only fair that the province compensate the school districts for lost revenue.

"War Weapons" Weeks in Great Britain from September 1940 to June, 1941 (the period of the heavy "Blitz") totalled 484, and produced £402,224,824 (\$2,047,647,110). Other similar "weeks" have been held since with usual success.

# BE READY *for* THE VICTORY LOAN SALESMAN . . . . . when he calls on you

ONE of these days a Victory Loan salesman will call on you  
... one of your neighbors or a man from this community  
who may be well known to you.

He is going to talk to you about saving money. That is all he asks you to do when he asks you to buy Victory Bonds. He will ask you to save money . . . and lend it to your country.

Perhaps you have a son or daughter in uniform . . . a lot of boys from this community are in the fighting forces. You would like to see them at home . . . and you would like that day to come soon. Alright! Here is something that you can do to bring them home . . . and to bring them home sooner. You can save money to buy Victory Bonds. Buy all the Victory Bonds you can. Buy them with cash and with money you have in the bank. Buy more on the savings plan which enables you to pay for them over a period of six months. (Your Victory Loan salesman will tell you all about this convenient plan of saving.)

Help your community over the top in this 5th Victory Loan.

## Bellevue-Hillcrest Leads Pass With \$18,400; Coleman Second And Blairmore Third With \$9,300

Local Subscriptions Are \$3,200 Ahead of Similar Period Last April; Citizens Appear to Better Appreciate Value of Bonds.

A hectic race is being run between Bellevue-Hillcrest and Coleman for the honor of leading the Pass in Fifth Victory Loan subscriptions. At the present time Walter Warn and his gang are ahead of the local outfit by \$350. Walter got away to a good start with \$9,000 in subscriptions the first day. Bill Chappell's Blairmore aggregation, always a slow starter, is running true to form this loan and is in the rear with only \$9,300. Bill however will no doubt be in the race before another week rolls around.

All three units report larger sales among the "small stuff." The majority of those who had been in the habit of buying a \$50 bond are found to be boosting their subscription up to \$100. This is most encouraging and bids well for all units reaching their respective quotas.

There appears to be a different feeling altogether among Pass citizens for this loan. Reports from canvassers reveal that they are being more cordially received and that the people as a whole look upon the loan as the most important ever launched in Canada.

Coleman is \$3,200 ahead of the loan last April and unit organizer Aboussafy attributes this to the changed attitude that many local citizens have taken as regards bonds. They appear to value Victory bonds more than ever and now know that these bonds have the safest backing than any bond on the market.

## Victory Loan Concert Heard...

(Continued from Page 1)

Major George O'Neil was then introduced in his opening remarks touched upon the fine window displays featuring pictures of Coleman young people in the armed forces. He dealt briefly with events following Pearl Harbor and frankly admitted that Canada had been fighting the United States' battle for more than a year before the U.S. woke up to that fact.

The Egyptian campaign he likened to the Battle of Supply. He traced the British retreat right back to El Alamein which he attributed to lack of supplies. At El Alamein, however, the supplies started to get through and history now records the glorious march of the Eighth Army right through to Tunisia. He paid tribute to the young boys and girls who are fighting our battles.

"We are going to win this war," stated Major O'Neil, "but so far we have only dented the European fortress. Thank God for men like Churchill, thank God for men like Roosevelt," he continued. "We are only a melting pot for the nationalities of the world. He remarked that his job was with the American air force command and it was his duty to keep the supplies rolling to the war theatres of the world. We must maintain the Battle of Supply or we can still lose this war, stated the Major. He gave figures on the large loss of 60 Fortresses over Germany last week. The loss in men was 600 although approximately half of them were thought to be prisoners-of-war. The financial loss was \$18,000,000. He was confident Canadians would again oversubscribe their loan.

Upon concluding his address Major O'Neil was honored by the audience singing "For He's a Jolly Good Fellow" followed with much applause.

Miss Dorothea Simpson gave a grand demonstration of twirling the batons.

Sgt. John Blair again appeared and sang the popular songs, "Lonely Road," and "Old Man River," having Cpl. Ingram as his pianist.

FL Art Clifford, D.F.C., of Gleichen, was then introduced and revealed that this was not his first trip in the district as he used to travel with the Gleichen hockey team when it was in its heyday. He read out Coleman's war casualties: Pte. Joe Zak, wounded in Sicily; Sqdn. Leader Foss Boulton, German prisoner-of-war; Sgt. Charles Maurer, Ja-

panese prisoner-of-war, P/O John Rogers, killed in action. In tribute to the memory of P/O Rogers the audience stood for one minute's silence.

FL Clifford dealt briefly with his stay at Malta, revealing that they had been bombed day and night, it being oft times almost impossible to get a British plane into the air. At last a convoy fought its way through dangerous waters to the island and brought with it approximately 100 Spitfire fighting planes. The machines were practically all assembled overnight and in the ensuing air battles during the next four days over 250 German aircraft were shot out of the sky. Following that the island became more livable. He stressed the point that the arrival of supplies in the form of Spitfires, etc. was responsible for turning the tide at Malta. Oversubscription of the Fifth Victory Loan would keep on turning the tide as more and more supplies rolled off Canadian war plants. Oversubscription of the war loan would also enable the boys in Sicily, Italy and in every war theatre to come back home that much more quickly. It was only a case of getting the supplies, concluded FL Clifford.

Miss June Tipping "gave out" with two popular songs, "Getting Sentimental Over You" and "I Didn't Want to Do It" which were received with great applause. Peter Meronek, of Coleman, gave a brief address to the Slavonic people in the hall and told them of the importance of buying bonds to further Canada's war effort. He spoke in a dialect understood by practically all foreign nationalities in the Pass. Sgt. Blair led the audience in singing "Keep the Home Fires Burning" which was followed by "God Save Our King."

Following a supper for the entire party at the Grand Union hotel they left for Macleod where they had a show scheduled at 11 p.m.

## PARADE AT BLAIRMORE

No. 7 S.F.T.S. Macleod airforce band arrived in the Pass at approximately 11:30 and played a number of selections at Maple Leaf, Bellevue and Hillcrest.

At Blairmore there took place quite an interesting ceremony. The band disembarked from their trucks at the Mounted police barracks, and with The Air Cadet trumpet band and air cadet

members in the rear, marched through the town playing gay marching tunes.

At the bandstand on main street unit organizer Wm. Chappell gave a few words of welcome to the large crowd present and stated the purpose of the band being in the Pass. Mr. Chappell was followed by Constable Meffen who supervised the flag raising ceremony which was accompanied by election from the cadet band under Mr. S. White.

Mayor Enoch Williams, in a spirited address, appealed to all Pass citizens to support the Victory Loan drive, driving home the fact that it was only through purchasing bonds that the Battle of Supply could be maintained and supplies sent to the battle fronts where our boys could use them to advantage and so shorten the war.

The presentation of the proficiency trophy won by the Air Cadet unit was presented to the unit leader of Turtle Mountain Squadron by FL Art Clifford, D.F.C., who in a brief address encouraged the youths in their air cadet activities.

WORLD HAPPENINGS  
BRIEFLY TOLD

Experiments designed to produce fire-resisting wooden lifeboats for merchant ships are being conducted by Britain's shipping authorities.

Six Northern Rhodesian chiefs recently had their first experience of flying and expressed a desire to learn "to drive one of those birds of war."

Commissioner S. T. Wood of Ottawa, head of the R.C.M.P., said that operations of the force are being expanded in the three prairie provinces.

Canadian telegraph companies handled 13,660,987 telegrams during 1942, compared with 12,680,124 in 1941, the Dominion Bureau of Statistics reports.

A box of matches taken to England from Sicily by a seaman brought \$500 in an auction at a London theatre. The money went into the Merchant Navy Comforts Service.

H.M.S. Musketeer, one of the new fast "M" class destroyers in the British navy, celebrated her first anniversary at sea and 50,000th mile the same day.

A new food element, called food yeast, with a slightly meaty flavor and as much as 50 per cent. high grade protein content, has been developed in Britain.

Boats of the Royal National Lifeboat Institution have rescued 6,288 lives since the war began, an average of 25 a week. Lifesavers have been awarded 177 medals for gallantry by the institution.

A Swedish hospital for civilians with 130 to 150 beds is being built near Oslo, Norway. The cost will be borne by Swedish relief organizations, but the staff will be composed of Norwegians.

A photographer's flashlight bulb exploded within two yards of the Princess Royal during an A.T.S. inspection at Aberdeen, Scotland, but the princess was the least perturbed of the party.

## HOME SERVICE

MAKE YOUR PARTY A SUCCESS WITH THESE GAMES

## A Party Game

Don't sit and worry about your party being a success? If you're entertaining a few servicemen at your home do not be at a loss as to how to entertain them. It's so easy to work up a few interesting games.

The illustration above shows the mixed music game. The leader of this imaginary orchestra stands in front of players who sit in semi-circle. To begin, leader pantomimes a violinist, and players imitate trumpeters. When the leader changes and blows a saxophone, the orchestra begins to fiddle.

As the leader switches from one instrument to another, players immediately start to perform on the instrument the leader has just stopped playing. Those failing to do so, pay a forfeit when game stops.

Our 32-page booklet is full of games for all kinds of parties. The games are of all types—from brain teasers to rollicking action games. No party will be dull with these to play.

You can easily make your party a success with a few of these games. Send 15c in coins for your copy of "Party Games for All Occasions" to Home Service Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man. Be sure to write plainly your name, address, and the name of booklet.

## ROLL CALL OF HEROISM

The fearful roll call of heroism is sufficient witness to the valor of our multiple ally, the British Commonwealth of Nations, says the Detroit Free Press. Only the Soviet Union and China, whose homelands have been ravished by the Axis invaders' ground force, can show a greater sacrifice to the common cause.

## ARMY POSSIBILITIES

A Betty-Grabish young thing was watching some soldiers drill. A rifle volley rang out. With a scream the lovely young lady shrank back—into the arms of a young soldier. "Oh!" she exclaimed, blushing, "I was so frightened by the rifles. Won't you please forgive me?" "It's all right," the soldier assured her. "Let's go over and watch the artillery."—War Wit.

## MENTAL ILLNESS

An individual is just as apt to suffer from a sick mind as from an infected appendix or gastric ulcers, but to most people mental illness still spells a major crisis with serious social and economic implications for the relatives as well as the patient. The stigma that is still attached to mental illness, militates against seeking early medical advice, and accepting that advice when treatment is counseled. A rational, understanding conception of such misfortune, when it comes, will help to put the patient under competent medical care promptly, assure his protection, and relieve relatives of much of the sense of stigma, which is only a hang-over from the days of witchcraft and casting out devils.

A major contribution to bringing about a more rational public attitude toward mental illness has been made by Edith M. Stern, an authoritative lay writer, whose little book, "Mental Illness: A Guide for the Family," has been published by The Commonwealth Fund, New York (\$1.00 U.S.). Mrs. Stern answers the anxious questions of those who have mentally ill relatives.

Two well known Canadian authorities in the mental health field recommend that this book be made available to all public health nurses. It would make a good handbook for physicians as well as nurses but since mental ill health may strike any one, we recommend it for general reading. The language and presentation are in simple English. The contents reveal a thorough understanding of the subject. In appendices, the author lists United States mental hospitals and mental hygiene societies. It is to be hoped that a Canadian edition containing this useful information will be published, or that any subsequent American editions will include Canadian directory.

## CALIBER OF GUNS

A naval cannon's caliber is the diameter of its bore, but if we speak of a 14-inch gun of 45 caliber, it refers to a cannon whose bore is 14 inches, and whose length of barrel is 45 times 14.

## Sailor's Life For Me

The best is none too good for Canadian sailors at sea, and cooks aboard corvettes, minesweepers and destroyers must be good at their jobs. So that men can be released for duty at sea, there have to be Wren cooks to do the work in naval training establishments ashore. In the picture above, Wren Bunting and Wren Handell, both from Toronto, are hard at work helping to feed naval ratings, officers and Wrens in their establishment. They say "It's a satisfying job when you hear what the sailors say about the improved menus now that the women are in charge!" Single, or married women without dependent children are accepted for enlistment as long as they are from 18 to 45 years of age.

## Believe It Or Not

Ripley Could Use This Story About Two Box Cars

Six years ago, railroad yards in eastern Canada built a series of new box cars. One car was No. 471,901 and the next was No. 471,902. Since then tens of thousands of cars have been constructed. A short time ago, both of these units turned up at a loading platform of a Winnipeg war plant, one right behind the other. Railroad statistical experts say they wouldn't even hazard a guess as to when such a coincidence might occur again.

## SUNDAY SCHOOL LESSON

OCTOBER 24

## HONORING OUR PARENTS

Golden text: Children, obey your parents in the Lord: for this is right. Ephesians 6:1.

Lesson: Exodus 20:12; Luke 2:48-51; Mark 7:6-13; John 19:25-27. Devotional Reading: Proverbs 4:10-18.

## Explanations and Comments

Honor Parents, Exodus 20:12. Honor—love and respect—thy father and mother. The promise of length of days—that thy days may be long in the land which Jehovah thy God giveth—was not so much a promise for the individual Israelite as it was for the nation itself. Such a relation between children and parents will be good for the national life, will conduce to the virility and stability of the people as a whole, and will make for the long life and prosperity of the nation. A prosperous national life is dependent upon respect for authority. Few people have lived up to this commandment as have the Jews. The family has been central with them more than it has been with certain other races, and no doubt the secret of their persistence as a people and the longevity of their racial spirit have their explanation largely here. A right relationship between parents and children is a virtue which brings many other virtues in its train. A home in which parents and children are at continual cross purposes will be a menace to the moral health of the community.

"Happy is the child who passes by easy steps from honoring his father to hallowing the name of his God; and happy the parent whose character is such that their children discover in them a preshadowing of the nature of God himself." (F. B. Meyer).

Jesus as a Boy Honored His Parents, Luke 2:48-51. Here we have part of that beautiful story about Jesus in the temple as a lad of 12 years, the parents' search for him, his mother's rebuke, his saying which they understood not that he must be in his Father's house. Then after that great experience he went back to Nazareth with them and was subject unto them.

The chuckwala lizard, when alarmed, hides in a rock crevice and inflates himself with air so he cannot be removed.

Buy War Savings Stamps Regularly.

## High Quality Flax

Canadian Flax Compares Favorably With That Of Other Countries

The quality of Canadian flax in comparison with that of other countries is very favourable, states the Dominion Department of Agriculture in a report on Oil Seeds Investigations. Iodine in the oil content is important. In a study of four varieties of flax grown at 54 stations from Alaska to Mexico, the iodine number from the samples grown in Canada exceeded those from any other region except those grown in the southwest under irrigation. As compared with the Great Plains and Northern Prairie regions where most of the U.S. crop is grown, the Canadian grown flax averaged 12 points better in iodine number. In test comparisons between Argentine and Canadian flax, the iodine content of the Canadian flaxseed was somewhat higher.

## Bells Ring Again

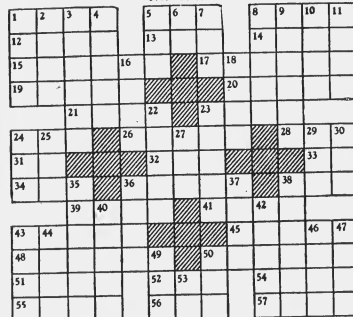

Cascades Of Sound Pour From Twisted Steeples Churches Of Malta

Malta's bells, those that are left, are ringing again; the need for keeping them mute has passed. Barbare bells! Anyone who has not heard them crashing and booming over Malta's straggling streets has missed an unforgettable experience, states the Manchester Guardian. Cascades of sound pour down from the twisted steeples churches to roll their brazen discord over the sunbaked roofs. On the many "festa" days to the noise of the bells is added the spluttering explosions of hundreds of maroons and crackers. And all the while, in the steeples the uncontrolled bell-ringers keep up their attack of sound. Boys and youths, they ring every bell together and enjoy the effect.

If cornered, a badger digs itself underground with lightning-like rapidity.
